The Window Is Closing

The midterms are rapidly approaching.

The window to defend the Constitution — and to save America — is closing fast.

BanSharia.com · Save Texas, Save America Campaign · August 2026

Sharia is not a private religious practice.

It is a comprehensive political-military-legal strategy for conquest pursued to subvert and replace our constitutionally guaranteed rights and government.

Women and Girls

Under sharia, their bodily safety is imperiled and equal rights are gone.

Freedoms of Speech and Religion

Under sharia, speech deemed to be blasphemy against Islam is a capital offense. And only Muslims enjoy religious liberty.

Equal Justice Under Law

Under sharia, there is no equality between Muslims and Christians and Jews who are, at best, enslaved as “dhimmis” and forced to pay a tax to survive.

Unless the Midterms change our nation's trajectory from inexorable submission to sharia, it will be locked in and accelerate for at least the next two years.

We have already proven the model works.

1.9 MILLION

Texas voters approved Proposition 10
“Texas should prohibit sharia law”
by a 95–5% margin in March 2026.

77%

of likely U.S. voters already share
concern about the influence of
radical Islam in America.

We need to build on this momentum by greatly enhancing access to reliable and actionable information for the Midterms and beyond.

After the Election — Sustained Accountability

- 1 Hold newly elected officials to the commitments they made to voters
- 2 Educate about model legislation to ban sharia in Texas and other states
- 3 Sustain information operations, industrial-scale video production and open-source intelligence
- 4 Expand training for officials, legislators, law enforcement and community leaders
