

A Report on the Founding of the BanSharia.com Coalition

On August 12, the cause of freedom in the United States got a new ally: **the BanSharia.com Coalition**. Founding members of this informal coalition assembled virtually to take stock of the next phase of its “Save Texas, Save America (STSA) Campaign,” which was highly successful in realizing its initial goal of promoting Proposition 10 in the Republicans’ open primary last March. That five-word proposition – “Texas should prohibit sharia law” – garnered 1.9 million votes, passing by a 95-5% margin.

We discussed the STSA Campaign’s priority goals for Phase 2: First, we seek greatly and urgently to expand the “situational awareness” of the American people about the true nature of sharia. Properly understood, **sharia is *not* a religion** and therefore not entitled to the protections of the First Amendment. Rather, it is the political-military-legal strategy for conquest of Islam’s death-cult. And sharia’s adherents are currently, explicitly focused at taking down the USA.

The second priority of Campaign’s Phase 2 aims to make “***banning sharia***” in the **United States** a national priority and decisive voting issue in this fall’s midterms.

To those ends, **BanSharia.com is generating powerful 90-second to 2.5-minute-long “micro-documentaries”** designed to illuminate the *present danger* posed by sharia-supremacism to, among others: women, children, non-Muslims, our Constitution and our nation more generally.

Our only ask of Coalition members is that they pass on to their members, followers, subscribers, supporters etc. as many of these videos as possible with the encouragement that they, in turn, relay them to their own circles of influence.

Here’s a link to the BanSharia.com videos released to date: <https://www.bansharia.com/micro-documentaries/>. They address:

- A short **introductory overview** of the Campaign, its proven effectiveness and plan of action;
- sharia’s **barbaric mistreatment of women and girls**, starting with depriving them of *bodily safety*;
- the build-out of the **critical infrastructure of jihad** (e.g., 48 mosques were reportedly constructed in Texas *in just the last 24 months*);
- sharia’s obligatory practice of ***taqiyya*** (lying to advance Islam) and **fraudulent oath-**

taking by sharia-supremacist candidates who have no intention of defending the Constitution;

- sharia-adherent Muslims' determination to **restore slavery** in this country by enslaving *all of us*;
- how the burgeoning *and government-enabled* **halal food industry** is advancing America's submission, one bite at a time; and
- a scandalous bill that would make **Massachusetts a sharia sanctuary state**.

In addition to viral distribution by Coalition partners, the STSA Campaign will utilize social media, digital communications and other information operations techniques to amplify BanSharia.com messaging.

By so doing, the universe of American patriots that are equipped with the truth about sharia and encouraged to help prevent not only violent jihad here, but the stealthy *pre-violent* “civilization jihad” kind practiced by the Muslim Brotherhood, will be expanded enormously. And, we pray, they will to agree to *engage in countering such threats*.

We are currently raising funds to maximize the impact of the Save Texas, Save America Campaign and intend, if successful in doing so, to **invest a portion of the proceeds back into organizations that have helped disseminate its video content**. Please keep us informed of the date and extent of your distributions.

With heartfelt thanks to all those who helped launch this exciting new force-multiplier for the good guys in the fight for freedom – and to all of you who will join us in contributing materially to this fight in the critical days ahead.
